-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 18-25 are objected to because of the following informalities:

Claim 18, line 9, after "time;" insert - - and - -.

Claim 23, line 8, after "structure;" insert - - and - -.

Claim 23, line 11, delete ";" and insert - - , - -.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the jointing link" in last line. There is insufficient antecedent basis for this limitation in the claim.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the

Art Unit: 2129

steps. See MPEP § 2172.01. As per claim 1, last three lines, the omitted step is a result of comparison that trigger the step of traversing a search path. As per claim 18, last three lines, the omitted step is a result of matching that trigger the step of traversing. As per claim 23, last three lines, the omitted step is the step that specify which processor determines the search node.

***Claim Rejections - 35 USC § 101***

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-17 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The language of the claim is directed merely to an abstract idea that is not tied to a technological art, environment or machine which would result on a practical application producing a useful, and tangible result to form the basis of statutory subject matter under 35 U.S.C. 101. As per claim1, the relationship between comparing step and traversing step is missing as shown in 35 U.S.C. 112 second rejection above. The claimed invention fails to recite a practical application that produces a useful and tangible result. Therefore, the claimed invention is non-statutory.

***Claim Rejections - 35 USC § 103***

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in the office action mailed April 27, 2005, pages 4-24.

Art Unit: 2129

Applicant amended independent claims 1, 18 and 23 by adding the first access time in the first memory is less than second access time in the second memory. Since the first memory is local memory and second memory is remote memory it is inherent that the time to access the local memory is faster than the time to access the remote memory.

***Conclusion***

6. Applicant's arguments with respect to claims 1-25 have been considered but are moot in view of the new grounds of rejections.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Davis whose telephone number is (571) 272-3683. The examiner can normally be reached on Monday through Friday from 10:00 am to 6:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Vincent, can be reached on (571) 272-3080. The fax phone number for the organization where this application or proceeding is assigned is (571) 273-3800.
